

Purpose

SYNTHETIC TRAINING ONLY. This is not clinical guidance.

A CHW records whether synthetic marker X is present.

The marker is the only clinical input in this manual.

Conflicting instructions

If synthetic marker X is present, record SYNTHETIC_HOME and finish the visit.

If synthetic marker X is present, record SYNTHETIC_IMMEDIATE_REFERRAL and finish the visit.

The manual gives no priority, exception, or tie-breaking instruction.

Review expectation

This contradictory source is a negative fixture.

Do not choose one action by array order or by external knowledge.

Record manual_review_required with conflict_resolution_priority missing.
